EIGHT UMPS FOR AMERICAN LEAGUE

Ban Johnson Wants Two Men to Look After Every

Sheridan discovered both of these men and attested as to their ability to the hoad of the American League. Johnson immediately arranged to engage their services for 1911.

Johnson will also re-engage Sheridan next season, but his duties will be more general than this year.

There will be two umpires for every game played, and in case one of the octet is off duty on account of sickness or injury Sheridan will be rushed to the scene to be the "other" umpire.

Summary;										
Chouinard, H										
fice hit-Hoos										
Collins, Payn										
Sullivan to L										

Atlanta, Ga., September 17.—Mobile and Atlanta broke the world's time record for a baseball game here this afternoon, when they played a full nine-inning game in thirty-two minutes. Mobile winning, 2 to 1.

This remarkable record was made possible by the two teams going on the field and coming to bat on the run. Invariably the first ball delivered to each batter was struck at and usually hit, without any effort to place it.

Thirty-five assists in the field tell the story. Novertheless, there were some sensational stops and throws, as well as some clever catches by the outfielders. Only one base on balls was recorded, and only one strike-out. There were four stolen bases one sacrifice hit, and one wild pitch, three two-baggers, one three-bagger, one triple and one double mlay. It was, from the standpoint of the fans, a snappy same, if not "heads."

Reo Five Passenger Touring Car, \$1,250. Top and Mezger Automatic Windshield Extra.

Reo Breaks the Record

New York to San Francisco in 10 Days, 15 Hours, 13 Minutes

The severest test ever made of the strength, endurance, reliability and other things that really count in motoring is this phenomenal run of 3557 miles.

Think of a car that keeps on going 101/2 days, day and night, over all the kinds of roads there are between New York and San Francisco-good roads, bad roads, awful roads, no roads at all but only deserts and mountain tracks, through mud, through sand, fords and all that-and gets there 4 days and 11 hours quicker than a \$4,000 car, and 14 days quicker than any other car that tried it!

The Reo did this and more. A schedule was made out in advance; and the Reo kept just a little ahead of that scheded ule every day. No big days, no small days. A thoroughly consistent performance from start to finish.

The Reo did it open and above board. Announced the start in the newspapers on Sunday, August 7, one day ahead, had the arrival and departure of the car checked and affidavits made by interested and responsible people at every important point and kept the newspapers informed all the way until it reached San Francisco on Thursday, August 18.

This record proves that the Reo has the power, strength and endurance to meet every emergency of year-in-and-year-out motoring. It is just one more emphatic proof of the well-known get-there-and-back ability for which the Reo has always been famous.

It proves that the Reo light-weight construction is sound and right—that light weight is not at the expense of strength, and that its combination of light weight and resiliency permit full use of power on rough roads with perfect safety to the car and comfort to the passengers; for otherwise neither car nor passengers could possibly have stood the strain.

Do you want a car with a fancy racing record that proves nothing, or with no record at all Or do you want a car whose private record is backed and proved by an absolute public test which shows that this car has all the qualities that count in comfortable and satisfactory motoring? 1911 Four-cylinder Reo Runabout, \$850.
